URGE OVERKILL - GUYS IN GUYVILLE

Here I am
Right here where you can feel me
Right here where you can see me
Hey, that's how it has to be

Let me be the one who always comes to you
That could never change in anyway
No no no
Let me be the one who knows you need to get away
When you need to get away from all the guys in
guyville
Guys in guyville

When you need to get away from all the guys in
guyville
Just you and me in your and my ville
And where gonna be all right tonight
And where gonna be all right tonight
Just you and me
Together far from guyville
Whoa

It's gonna be alright, alright
It's gonna be alright tonight
Gonna be alright tonight
Just you and me together far from guyville□
