

## Urbandub "Method To Chaos"

Visit "[Method To Chaos](#)" on MotoLyrics.com

A blinding torture  
The victim here lies awake  
Faint breathing, stay lucid  
Walls close me in  
This pen and paper is my only savior now  
From everything weighing me down  
The loneliest time in the world  
When shedding your skin  
Try to begin and rebuild again  
Voices aren't loud enough  
You're tuning your ears  
While waiting for something to hear  
I need affection  
Bring fire back to my tongue  
Screaming addiction  
From my blackened lungs  
This pen and paper is my only savior now  
From everything  
The loneliest time in the world  
When shedding your skin  
Try to begin and rebuild again  
Voices aren't loud enough  
You're tuning your ears  
While waiting for something to hear  
Do you know who you're running from?  
Vindication is not too late for us  
Do you know what you're running from?  
Let this desperation be done'  
The loneliest time in the world  
When shedding your skin  
Try to begin and rebuild again  
Voices aren't loud enough  
You're tuning your ears  
While waiting for something to hear  
Waiting for something to hear 2x

The loneliest time in the world  
When shedding your skin  
Try to begin and rebuild again  
Voices aren't loud enough  
You're tuning your ears  
While waiting for something to hear

While waiting for something to hear 3x
