Nothing from a schoolboy taught me right from wrong  
Education's dead  
I knew the answer, but had all the questions wrong  
Somebody's head they said  
I didn't see it happen  
I didn't have a clue  
In somebody else's body with someone else's head  
In somebody else's body when I was someone else  
instead  
In somebody else's body with someone else's head  
When you're in somebody else's body in someone  
else's bed

A revolution came and left today  
Nobody knew  
It came and went, and so did Judgement Day  
It's really nothing new  
I didn't read the papers  
I didn't watch the news, no  
In somebody else's body with someone else's head  
In somebody else's body when I was someone else  
instead  
In somebody else's body with someone else's head  
When you're in somebody else's body in someone  
else's bed

Ooh, baby, you are everything to me, but sometimes I  
need more  
Ooh, and lately it seems the more I get the more I just  
keep lookin' for  
So tell me what's the use  
So tell me now, tell me what the use is when it's over  
It's over, it's over when you're  
In somebody else's body with someone else's head  
In somebody else's body when I was someone else  
instead  
In somebody else's body with someone else's head  
When you're in somebody else's body in someone  
else's bed  
But it's over when you're  
In somebody else's body with someone else's head, oh

When you're in somebody else's body when someone  
else is dead  
They can't tell it's me  
No, no, no
