What makes us cry  
What makes us fall  
Why does it all crumble at night

Since you've been gone  
I carry on  
Waiting for you to walk through the door

But the more i think of you  
The more I want to say I miss you

Love's got a hold on me, oh my  
Love can make you cry  
I dont know how, I don't know why  
But love can make you cry

So many things  
I dont understand  
You were always there holding my hand

If love is gone  
Then just give me time  
I know we can start over again

Cause the more I think of you  
The more I want to say I love you

Love's got a hold on me, oh my  
Love can make you cry  
I don't know how, I don't know why  
But love can make you cry
