#### [Verse 1]

Cause everybody know a crowder  
They're the type to climb on other crabs  
when you find there's something that they gotta have  
Any means justifying the ends  
And storming any port whether enemy or a friend  
Hand in the wolves cloak, legend with the remote  
The manifestation of a lemming is often a blow  
Alot of big notes(?) might swing alot of votes  
But the same principle is the war of the world hokes  
As common as cane toads in Queensland know that I  
play fair  
With these hands we can see man  
I'm getting sick of the he-men I tuggle with  
You need to be cut right back down like shrubbery  
Don't call it conscience, call it a recovery  
Spoilt kids that reduced to them taking custody  
Lost and found and found and lost  
Should wear around your neck like an albatross

#### [Chorus]

Because what you do is not brave  
No matter what your megaphones say  
You're better off if bad laws break  
And what you do is not brave  
No matter what your megaphones say  
You're better off if bad laws break  
They'll be a riot in the streets of Sydney tonight

#### [Verse 2]

They said how can you allow it  
Do not want to know facts or anything about it, keep  
your head bowed  
By the week, month and year the days counted  
Relying on the betrayal of how we were founded  
Now there's no other way around it, they coming to  
roost  
I wonder if you'll reach a moment of truth  
The thing's going on under the ton of Nauru(?)  
Even concervative Christian groups ask for proof  
And LEA never said we're not autonomous yet

But yet they plainly neglect me it don't need to be said  
Check your fucking concept of self respect  
Don't get it twisted, history beckoned and you missed it  
The menace is distant but no less real  
On our streets like the opium of Afghan fields  
The only honourable ones are the ones that squeal  
How's that for an inditement but that's the deal

[Chorus]

[Verse 3]

I call bullshit on think tank tards  
Banded all whatever conservative think tanks are  
Laugh long and hard, it'll last like big banks silence  
Just business, don't you fools start up on the listener's!  
'Cause the risk is that you devide your market  
Some of you consumers might feel that they're your  
target  
What you've got a small one and this might halve it  
Se la ve, 'cause that's just the way it'll be  
{repeat first 5 lines of Verse 3}  
Some of you consumers might feel that they're your  
target  
Don't you understand what your doing is real hard but  
Se la ve, 'cause that's the way it's gonna be

[Chorus] {X2}

They'll be a riot in the streets of Baghdad tonight

Dedicated to David Hicks and his dad Terry  
Illegally incarcerating and torturing one of our own  
citizens  
without charge nor trial is not brave  
Mearly flying a flag... and saying "Mission  
Accomplished"  
is not brave  
Abandoning our own is not brave  
It's not brave
