"The Signal"

Visit "[The Signal](#)" on MotoLyrics.com

Ladies and gentlemen, The Signal
We sending it out
Can you hear me!
Aha, yeh we coming home now right
(Please come home), check it out, you with me?
You come along with Urthboy and Count Bounce now
(Please come home)
(1-2 can you hear me!)

[Verse 1]

Yeh you understand what we got up in on the fast train
Express contour line to underline the last name
It seems we're behind but we don't wanna start late
This adrenaline is meddling with the heart rate (uh)
Some of them liss(?) while the tongue tick to can't wait
Can't take or sit still or can't break, can't shake the shit
Threw it all, we're still partaking it
Facing it like we haven't lost faith in it
Of course you got stakes in it
It's not a matter of you wastin it
Like black crude we're creating it
Cat o' nine tails wrapped racin' it
Spend all our days in it, raisen it
Cut to the paper chase and it gets cold
Get sold like Fools Gold get text old
Your absence felt ten-fold
and if you do it its a welcome home, behold

[Chorus]

We shared too much to not be blind
and if I didn't give a shit I'd probably just rhyme
That's why I'm sending out the signal
(Please come home)
(1-2 can you hear me!)
We shared too much to not be blind
and if I didn't give a shit I'd probably just rhyme
That's why I'm sending out the signal
(Please come home)
(1-2 can you hear me!)

[Verse 2]

Yes indeed we need to plant seeds
That not mean to leave 'cause life is like speed
Get it all together, drop the "I's" and cross the "T's"
I not got to keep your philosophies like Socrates
It hasn't always been a perfect fit but
It aint a contra card the party need to rip up
Don't want no mix up, you could get a lift up
Nobody decapitated others over hiccups (yo!)
Your the kind of person that you notice when they're
gone
The little hand tocks but the clock ticks on
I missed that song that we sung so long ago
You know a little place you can dock your boat (right
there)
Your not Ronnie Biggs your really not on the run
It's like I haven't seen you since the Rabbitohs won
So welcome back whenever you come (when you come)
(Please come home), I see your silhouette in the sun

Look I can't stand the distance
I'll give up all pre-conditions
All will be forgiven and if you (Please come home)
Ok, I said it
Look I can't stand the distance
I'll give up all pre-conditions
All will be forgiven and if you (Please come home)
I'm sending out The Signal!

[Chorus]

Muffled

aha yeh something like that, something like that
awww get lost right back (ohhh man)

[Hook/Cuts: Elgusto]
Please come home
