Richie:I understood the plan I'm gonna be the man
Chris:(You changed my destiny, no doubt it's plained to see)

Richie:One life is all we've got don't let them make you stop

Chris:(Let's fight for what is right we'll make it through the night)

Girls are you ready for me?
Girls are you ready for me?
Girls are you ready for love?
(Now everybody dance)

Don't let the rhythm die, put your body to it
Don't let the music die, put your soul into it
Don't let the rhythm die, put your body to it
Don't let the music die, put your soul into it

Shakin' it to the right (oohoo)
Then move it to it
Shakin' it to the left (oohoo)
Just dancin' to it
Shakn' it to the right (oohoo)
We're movin' to it
That makes the rhythm of life

Richie:Last night I had a dream It was a crazy scene
Chris:(Music everywhere, the rhythm took us there)
Richie:People from all around, made up a brand new song
Chris:(They lived in harmony until eternity)

Girls are you ready for me?
Girls are you ready for me?
Girls are you ready for love?
(Now everybody dance)

Don't let the rhythm die, put your body to it
Don't let the music die, put your soul into it
Don't let the rhythm die, put your body to it
Don't let the music die, put your soul into it

Shake it to the right (oohoo)
We're movin' to it
Shake it to the left (oohoo)
Just get into it
Shake it to the right (oohoo)
We're movin'to it
That makes the rhythm of life

Jay:I've never saw a crowd so into it
All the girls in the club get into it
You're not into it to get into it
Cause I never heard a crownd so into it
All the boys from around we down with it,
Grab a girl on the floor get down with it
You're not down with it get down with it
Everybody everywhere no time to quit

Now it's up to you
To make a change of life
So let it through
Look inside your soul
And take control
Noone deny
The rhythm of life
(Let's dance, let's dance...)

Don't let the rhythm die, put your body to it
Don't let the music die, put your soul into it
Don't let the rhythm die, put your body to it
Don't let the music die, put your soul into it

Shake it to the right (oohoo)
We're movin' to it
Shake it to the left (oohoo)
Just get into it
Shake it to the right (oohoo)
We're movin' to it
That makes the rhythm of life
