"Out Of My Life"

Visit "[Out Of My Life](#)" on MotoLyrics.com

The day is coming back
You say "The time is over, and nothing changed this"
The night is deep in your face
Your clouds cover
The sunshine in my life

You're out of my life
Out of my life
You're out of my life
Out of my life

Don't fear, don't cry, please
I know the murmurs in your mind
The light is black in your eyes
I spent my time with you in the shadows

You're out of my life
Out of my life
You're out of my life
Out of my life

The light is black in your eyes
I spent my time with you in the shadows

You're out of my life
Out of my life
You're out of my life
Out of my life.
