Just by the look of it  
As in the way you wrote me off  
Im not supposed to see  
Your eyes tell lies you mouth can never spill  
I wasn't feeling it  
I don't even need to shake your hand  
I guess you were born equipped  
Your eyes tell lies you mouth can never spill  
Your eyes tell lies you mouth can never spill

So nice to meet you  
I see right threw that smile so in other words  
So nice to meet you  
I hope I never see your face again

Don't want a part of it  
Don't want to be seen with a type like you  
I know you were born equipped  
Your eyes tell lies you mouth can never spill  
Can we get on with it  
We both need to go our separate ways  
And never be seen again  
Your eyes tell lies you mouth can never spill  
Your eyes tell lies you mouth can never spill

So nice to meet you

I see right threw that smile so in other words  
So nice to meet you  
I hope I never see your face again

The devil beside you  
To watch you die when you can't find a remedy  
So nice to meet you  
I hope I never see your face again  
I hope I never see your face  
I hope I never see your face again

I hope I never see  
I hope I never see your face  
I hope I  
I hope I

I hope I  
I hope I never see your face

So nice to meet you  
I see right threw that smile so in other words  
So nice to meet you  
I hope I never see your face again

The devil beside you  
To watch you die cause you can't find a remedy  
So nice to meet you  
I hope I never see your face I  
I hope I never see your face I  
I hope I never see your face again!
