Do you remember a year ago  
The times we spent  
I think that I'm happier now  
Up from the down  
By all means  
It's strange cause I feel the same way

I think of what it looks like  
I think of what it tastes like  
I think of what it looks like  
I think of what it tastes... tastes

Same strange, said it's strange cause I feel the same  
Same strange, said it's strange cause I feel the same  
Still remember what it tastes like  
What it felt like

Makes me I'll  
Me I'll

I think of what looks like  
I think of what it tastes like  
I think of what it looks like  
I think of what it tastes... tastes

Same strange, said it's strange cause I feel the same  
Same strange, said it's strange cause I feel the same  
Still remember what it tastes like (Same strange, said  
it's strange cause I feel the same)  
What it felt like (Same strange, said it's strange cause I  
feel the same)

Makes me I'll  
Makes me I'll  
Makes me...  
Makes me...

Still remember what it tastes like (Makes me ill, makes  
me ill, me ill)  
What it felt like (Makes me ill)
