I've seen that face, that look in your eyes  
It's so hard to hide that look in your eyes  
You've been kicked down so many times  
Yeah you've tasted the dirt  
And you know what it's like

Fill up your cup  
Fill it up to the top  
Take a sip, spit it out  
And fill it back up  
Cause you said "half full is never enough"  
All alone and you've had enough

Don't let me be, don't let me be  
All by myself,  
that's not how I felt  
Do I deserve to be one of the lonely?  
Hold my hand, stand by me  
All by myself,  
that's not how I felt  
No one deserves to be one of the lonely  
Hold my hand, stand by me.

I've got that face, that look in my eye  
It's impossible to hide  
That look in my eyes  
I've been kicked down so many times  
Yeah, I've tasted the dirt,  
I know what it's like

Fill up my cup  
Fill it up to the top  
Take a sip, spit it out  
And fill it back up  
Cause I said "half full is never though"  
All alone and I've had enough

Don't let me be, don't let me be  
All by myself,  
that's not how I felt  
Do I deserve to be one of the lonely?

Hold my hand, stand by me  
All by myself,  
yeah that's not how I felt  
No one deserves to be one of the lonely  
Hold my hand, stand by me

How many times will we forgive  
but we just can't forget  
Time after time and still,  
we let it happen again  
How many times do we  
deserve exactly what we get?  
I never wanted, no I never wanted to be

All by myself,  
that's not how I felt  
Do I deserve to be one of the lonely?  
Hold my hand, stand by me  
All by myself,  
that's not how I felt  
No one deserves to be one of the lonely  
Hold my hand, stand by me.
