Ladies, we gon' try something different this time
I ain't sayin' you wrong for doin' it how you do it, fellas
But it's something different
(When put a lil' extra in it man I'm tellin' you, you get a
lil' more power)
Sing it ladies, listen

I see you standin' here lookin' real nice
I bet I know what's going through your mind
You probably thinkin' that every man in here
Is lookin' for somebody for one night

Your friends drug you out 'cause you ain't wanna come
That's why you're standin' there actin' stuck up
Holdin' up the wall, you got a misconception of men
Thinkin' we're all the same, full of games
All because you ended up with the wrong one

I bet you think that chivalry is gone
'Cause you ain't seen nothing like it in so long
It's when you open her door, walk on one side of her
You give her your coat when it's cold outside

A man ain't a man until he's man to his woman
Compliments and flowers really lets her know that you
want her
Let me spell it out C H I V A L R Y
Girl, if you feel like chivalry is gone girl, I'ma change
your mind

Your probably like, why did I pick you
Well, I'm over there, you L double okay at me like, ooh
And I was wonderin' what's your N A M E
How you gon' A C T when I C O M E over and ask you
what it do?

And her reply was S O double R Y
Thanks for the compliment
But I gotta let you know I'm probably not your type
You got a misconception of me, listen and I'll make you
see
Don't let one B A D a double P L E spoil it for the bunch

I bet you think that chivalry is gone
'Cause you ain't seen nothing like it in so long
It's when you open her door, walk on one side of her
You give her your coat when it's cold outside

A man ain't a man until he's man to his woman
Compliments and flowers really lets her know that you
want her
Let me spell it out C H I V A L R Y
Girl, if you feel like chivalry is gone girl, I'ma change
your mind

Now this ain't for everybody man
So don't get twisted on what I'm sayin'
If you wit somebody right now
But you feel that they playin'
Then I know that you understand

How it feel when you talk for hours
Show up at the door wit some flowers
When you put a lil' extra in it
Man it give you just a lil' more power

Most of us go the extra mile
To get what even though it ain't our style
The stuff I'm talkin' most ain't seen
Or heard since they was just a lil' child

I'm tryna show you how to really get her on
I'm tryna show you how to really get her home
I'm tryna show you how to have shorty mind
All messed up in the zone, just tell her I

I bet you think that chivalry is gone
'Cause you ain't seen nothing like it in so long
It's when you open her door, walk on one side of her
You give her your coat when it's cold outside

A man ain't a man until he's man to his woman
Compliments and flowers really lets her know that you
want her
Let me spell it out C H I V A L R Y
Girl, if you feel like chivalry is gone girl, I'ma change
your mind
