This is just to show my appreciation
For all of your love for all of these years

You're doin' the most
(Yeah, yeah)
I wanna learn
(Oh, yeah, yeah)

To understand
(Oh, baby, baby, yeah)
And I like it babe
(And I like, babe)
Listen

You there for me every time
You make sure that I'm alright
Down for me with so much love
No matter what I can't believe you deal with me

Even when I put you down, how can you keep giving?
When I disappoint you
You don't deserve it but why do you take it?
'Cause you say I'm worth it

You're doin' the most
(Show me, baby)
I wanna learn
(Teach me suga)
To understand

How to love and please you
(Yeah)
Like you do every time I need you
(Oh, oh, yeah)

You're doin' the most
(You're doin' the most)
I wanna learn
(I wanna learn)
To understand

I sampled a taste of your forever

And I like it, babe
(And I like it, babe)

It been a minute since we spent some time
I was in the wrong state of mind
Hope I can fix it
With dinner by candlelight

A dozen roses
Hershey kisses for the ground you walk on
If I never told you
I'm so proud to say your mine

My time and attention
I'm willing to give it
I don't wanna lose you
I couldn't take it

Yeah, you're doin' the most
(You're doin' the most)
I wanna learn
(Teach me suga)
To understand

How to love and please you
(Yeah)
Like you do every time I need ya
(Oh, oh, baby)

You doin' the most
(Doin' the most, yeah)
I wanna learn
(I wanna learn)
To understand

Say I sampled a taste of your forever
And I like it, babe
(Ooh, girl, I like it)
I like it, babe

I used to have my dimes
Love was just a game to me
But now I know why love's so amazing
Because it changed me

You never gave up and now I know
True love's not taken
Thank God you're who you are
'Cause you gave love from your heart

You're doin' the most

(You're doin' the most)
I wanna learn
(I wanna learn yeah)
To understand
Like you do every time I need you

You doin' the most
(Show me, baby)
I wanna learn
(I wanna learn)
To understand

Sampled a taste of your forever
And I like it, babe
(Ooh, girl, I like it, babe)
I like it, babe

All the times we fussed and fight
Wanna make you feel good tonight
This is your day suga
Smile for me, babe

You're doin' the most
(Uh, oh, you're doin' the most)
I wanna learn
(Girl, I really want to understand)
To understand

Sampled a taste of your forever
And I like it, babe
(Ooh, girl, I like it)
I like it, babe
You taste so good to me
