she took me on a trip to another world,
she said you'd never feel like this with another girl.
her eyes lift as the sun rays fell over her face,
i was amazed.
then i realized that i was in this enchanted place,
all i could say is baby keep on giving me more.

she makes me feel like I'm breathless (off with my
feet, I'm floating)
i only hope i can take it (no gravity can hold it)

its like the stars and planets are all aligned,
and for the first time in a while i feel alive babe.

i lose myself inside your love its hard to escape,
ooh i cant break these chains and i don't want to baby.
I'm dancin on the clouds whenever i see your face,
and all i can say is baby keep on giving me more sugar.

she makes me feel like I'm weightless (off with my feet,
I'm floating)
i only hope i can take it (no gravity can hold it)
she makes me feel like I'm wasted
