It's so crowded up in here what you doin' all alone  
And It's so dark in here plus you ain't even got your  
phone  
What kind of man would ever want to leave your side  
Shame on him you coming home with me tonight  
babe...

Go missin'  
Baby aint nobody gotta know  
Go missin'  
Country's tellin' you shouldn't go  
Don't listen  
I'mma take a key for sure turn her up  
You can follow me right out that back door  
Go missin'  
Go missin'  
Go missin'  
Baby we can keep it on the low  
Go missin', go missin', missin'

Reckless abandon go ahead and card your girl  
They probably got someone taking care of them  
Girl teach his own  
I promise if you come with me I'll let you get home in  
the morning  
Make up your mind girl what's it going to be  
Keep it mind we gotta leave before they turn the light  
on  
I'm gon' rob my keys don't you over ..  
Just leave with you I bet they probably be long gone

Go missin'  
Baby aint nobody gotta know  
Go missin'  
Country's tellin' you shouldn't go  
Don't listen  
I'mma take a key for sure turn her up  
You can follow me right out that back door  
Go missin'  
Go missin'  
Go missin'  
Baby we can keep it on the low

Go missin', go missin', missin'

Come with me shorty forget about him  
Call me big daddy to the morning  
Do yourself a favor tonight  
Cause a chance like this only happen once in a lifetime  
Come with me shorty do you want to get it in?  
You and me shorty I'mma take you out of here  
So do yourself a favor tonight  
Oh, girl lets go missin'

Go missin'  
Baby aint nobody gotta know  
Go missin'  
Country's tellin' you shouldn't go  
Don't listen  
I'mma take a key for sure turn her up  
You can follow me right out that back door  
Go missin'  
Go missin'  
Go missin'  
Baby we can keep it on the low  
Go missin', go missin', missin'
