What, what  
You got it going on  
What, what, oh come on  
What, what  
You got it going on  
What, what, come on

Strictly fuck with those 6 digit niggas  
If the first one is a 9 they a buck behind  
I live my rhyme  
At the same time can't find myself layin' up

If you ain't payin' up  
Bullets start sprayin' up  
You know my niggas is sick  
The game ain't enough

For you to run up in this  
I needs stacks of chips  
You know dream house money  
Shit you just like me  
So don't start acting funny

Your the kind of girl that makes  
Everybody feel that you're  
Just so damn good, so damn good  
But your secrets I found out  
So, don't deny what you're about  
I know the truth, and you know I do, I do

'Coz, I know you get lonely  
Just like me  
And you want it  
Just like me  
But act like you don't  
When you know you're just like me

I know you get lonely  
Just like me  
And you want it  
Just like me  
But act like you don't

When you know you're just like me

Quiet is kept you cry for help  
When no one else is there  
I betcha you touch yourself  
Does it feel good?

Late night calls  
I betcha you do it all  
Anything to get it off  
But you still persist to front on me  
Baby, tell me

Why, oh why do you play this game of chase?  
When you know, we both feel the same way  
And why do you put me through all these changes?  
When you know your just a freak like me  
You're just like me

If I had one wish in the world, I swear to God  
It would be for girls to rock pearls  
Straight out the oyster  
Voice your opinion queen bee made a million  
Got mirrors on my ceiling, so I can see it

When ya head be in between it, if I had a penis  
I'd be heartless for real though, niggas start shit  
I'd just flash out my dildo, ya'll move too quick  
Thought I'd be memorized by your cocaine bricks

And ya smoke gray six  
Nigga I thought you was a groupie  
Obsessed fan with my picture in your hooptie  
You heard my record, now ya know I'm freaky  
So ya wanna wreck it and ya wanna see me

How your dreams be, you want me sexual  
In a gun fight, 2 on 3 I'm next to pull  
And I love life something you never could imagine  
Then you woke the fuck up it's just rappin'

'Coz, I know you're just like me  
I know you get lonely  
Just like me  
And you want it  
Just like me  
But act like you don't  
When you know you're just like me

I know you get lonely  
Just like me

And you want it  
Just like me  
But act like you don't  
When you know you're just like me

Just like me  
Just like me  
Just like me  
Just like me
