Visit "[Mars Vs. Venus](#)" on MotoLyrics.com

Your eyes say it all..
All...
They're fixed upon an object of desire
You can't control
No...
But gravity compels you to ignite
And explode
Ohhh...
Til our time and space combine you'll fantasize
The unknown
Oohh..

Girl it's taking off the ground
You know how I put it down
Have you seeing stars baby

This is the big bang so unpredictable
Sex, love
And find out whose in control
Mars verses venus
But when the worlds collide
This is the big bang
Step into the ring of fire
Sex, love
Lets find out who takes desire

Seduce and analyze
Yeahh
Objective is to conquer deep
And I make paradise

Girl it's taking off the ground
You know how I put it down
Have you seeing stars oohh

This is the big bang so unpredictable
Sex, love
And find out whose in control

Mars verses venus
But when the worlds collide
This is the big bang

Step into the ring of fire
Sex, love
Lets find out who takes desire
[x2]

Pitch black
Across amidst the galaxy between the sheets
Want that only you and i
Generate when we collide
Hold that
Dont make my emotions peak
If I let go then ill be weak
Your control is my defeat
I repeat never never never never
Will I give up no no no no
(i aint givin up no)

This is the big bang so unpredictable
Sex, love
And find out whose in control
Mars verses venus
But when the worlds collide
This is the big bang
Step into the ring of fire
Sex, love
Lets find out who takes desire
Mars verses venus
[x2]

But When the worlds collide

I dont know if I win
But I know that I wanna do it again
[repeat til fade]
