Me like it when you spit fire
Usher boy give me that hot wire

Me like it when you spit fire
Usher boy give me that hot fire

Me like it when you spit fire
Usher boy give me that hot wire

Me like it when you spit fire
Usher boy give me that hot fire

See my covers blown
Cos my Lois Lane
She ain't playing the game
Losing altitude
They tryna change my zone
Oh wait a wait a minute
Let me put my goggles on
They give me all this fame
And say it's mine to choose
Tryna send me down in flames
So what am I to do
Something's wrong with my plane
I think i'm losing control
? somebody's shooting from the other side of the
globe

You took a chance on me when they told you not to
Not to (x3)
When my plane start going down you were the only one
here
They told me leave you on the runway but that I can not
do
Not do (x3)

I'm back up in the air and i'm heading for the stars
Everybody's running ?

? magazine called me Mr 6 page
The way they treating me these days got me space age
They tryna ruin me with rumours like they did to Britney

But I can't fall ?
I guess the big part of me is the big score
And you gonna get it back when you come to see me
on tour
Now you gonna put me on a pedestal and give me ?
shades

Cos then they try to take it away from me and my
stage!

You took a chance on me when they told you not to
Not to (x3)
When my plane start going down you were the only one
here
They told me leave you on the runway but that I can not
do
Not do (x3)

I'm back up in the air and i'm heading for the stars
Everybody's running ?

When they gone 16
The next thing i'm holding you in my arms
I never thought that day would come that you would be
the one that I would call my boo
All my accomplishments and fortunes I wanna share
with you
No matter if my plane crash, burn, turn to ash
I'm in this with you!

You took a chance on me when they told you not to
Not to (x3)
When my plane start going down you were the only one
here
They told me leave you on the runway but that I can not
do
Not do (x3)

I'm back up in the air and i'm heading for the stars
Everybody's running ?

You took a chance on me when they told you not to
Not to (x3)
When my plane start going down you were the only one
here
They told me leave you on the runway but that I can not
do
Not do (x3)

I'm back up in the air and i'm heading for the stars
Everybody's running ?

Yeahhh

Leave us alone
