Famous name, famous life, famous night, oh yeah
Really don't clear to me maybe
But unless she said to be famous with me
Even through it's been â€¦ corner eyes, between us for
years
I swear if I could change it, I wouldn't change
everything
Just all the moments I've hurt you I'd reverse
I'd reverse â€¦ the decisions
â€¦
â€¦ I'm missing a woman that I gotta find
I miss her, touch, I miss her, smile
If you seen her tell her that I miss her, please
I'm missing my woman
I won't stop until she's there

Calling up car, family and friends, give me her phone
They don't know where she goes

But I still believe we're unbreakable
I'm needing her no more than before, oh yeah, I swear
that I wanna change it
I ain't perfect girl, I won't purposely hurt you
I'll be perfect make some better decisions
If anybody is listening please, I gotta find her
I miss her, touch, I miss her, smile, tell her that I miss
her
I'm missing my woman, I won't stop until

I'm missing you like no strings on a violin
A â€¦ boat in the water without the wind, I can't move,
no I can't move
If it would bring me â€¦ will
Got the key to my car but without the gas I can't move
And I ain't going nowhere, nowhere
I'm missing my woman
I miss her, touch, I miss her, smile, If you seen her tell
her that I miss her
I'm missing my woman, she's breaking my life.
