It's crazy
I can't believe that you
Would be the one to do
Do me like you do
Get back here baby

Girl you let me
Have my way and I was thinkin' I could get it again
Baby we could be friends if you only
And you show me
Just how quick your tyres could spin
You were off in the wind
Tell me were did you go

When you left
I'm thinkin' which way did she go
I should have known that you would lead me on girl
I'm in the wind on cruise control
I gotta be dreamin' 'cause I never felt like this before

It was supposed to be
Just a one night
In and out and I'm out of the door
But she's got me sittin' here
At the red light
Drivin' 'round lookin' out for her

It was supposed to be
Just a one night
In and out and I'm out of the door
So why am I sittin' here
At the red light
Drivin' 'round lookin' out for her
Lookin' out for her

Now it's rainin'
And I'm lookin' over at the passenger side
Thinkin' back in my mind how you set me off
She was stoppin' and droppin' me
Switchin' from fast to slow
But that ain't have nothing on how you got

When I got you home

When you left

I'm thinkin' which way did she go

The way you touched yourself had me up the wall

I'm in the wind on cruise control

I'm searchin' for you 'cause I can't seem to let you go

It was supposed to be

Just a one night

In and out and I'm out of the door

But she's got me sittin' here

At the red light

Drivin' 'round lookin' out for her

It was supposed to be

Just a one night

In and out and I'm out the door

So why am I sittin' here

At the red light

Drivin' 'round lookin' out for her

Lookin' out for her

You know

I really only thought

That this would be a one night stand

What you doin' to me?

Come on

What you doin' to me?

Maybe

She's runnin' home to someone else

(What you doin' to me? What you doin' to me?)

Or maybe

She lost my number in her cell

(Babe)

(What you doin' to me?)

Or maybe

She's never done like this before

(What you doin' to me? What you doin' to me?)

'Cause I can't see

Her not comin' back for more

(What you doin' to me?)

More

(Don't stop it)

It was supposed to be

Just a one night

In and out and I'm out the door

But she's got me sittin' here

At the red light

Drivin' 'round lookin' out for her

It was supposed to be
Just a one night
In and out and I'm out of the door
So why am I sittin' here
At the red light
Drivin' 'round lookin' out for her
Lookin' out for her

It was supposed to be
Just a one night
In and out and I'm out of the door
But she's got me sittin' here
At the red light
Drivin' 'round lookin' out for her

It was supposed to be
Just a one night
In and out and I'm out of the door
So why am I sittin' here
At the red light
Drivin' 'round lookin' out for her
Lookin' out for her
