It's cool, you got a job and everything
But you know it ain't the money that made me look
Let's just keep it real babe
I could give a damn about the way you cook
You need a little motivation baby
Lemme pour a little liquid courage Off in your cup
Ain't lookin' for nothing too serious
Can you put it down, everytime you give it up

Cause you're so focused on your fashion
And everything you own
Yeah, you're independent but you're spending nights
alone
I can satisfy ya, ecstasy and fire
So let's assume I'm takin' you home
And then I'll...

Stroke your ego
Seems like that's what you need
Stroke your ego
I'll give you pleasure indeed
Stroke your ego
I'll make you feelin' like never before
Got what you want, and what you need
Leave it to me
And I'll stroke you all night long

Acting like a diva babe
It might be cute, but it ain't gonna get you much
I'll sink my ship in your ocean baby
never mind the lotion let's touch

Cause you're so focused on that fashion
And diamonds and flashy things

You say you're independent, but really what does that
mean
I can satisfy ya, I'll ignite your fire
But only if you're coming with me
Then Ima...

Stroke your ego

Seems like that's what you need
Stroke your ego
I'll give you pleasure indeed
Stroke your ego
I'll make you feelin' like never before
Got what you want, and what you need
Leave it to me
And I'll stroke you all night long

You're self sufficient baby, you need attention girl
I see it's something you crave, crave
And I just won't have it, now put away that rabbit
Cause I can do it better than anyone
So let me...

Stroke your ego
Seems like that's what you need
Stroke your ego
I'll give you pleasure indeed
Stroke your ego
I'll make you feelin' like never before
Got what you want, and what you need
Leave it to me
And I'll stroke you all night long
