(Verse)

I've been waiting all night long
Got me beating down your door
You open up I pick you up
And press you up against the wall
Kissing all over, whipping off clothes
Get it hot and heavy to the bitter
Here we go like, uh, I'm gonna beat it up
You're so ready I'm so ready for this good love
Uh, I'm gonna beat it up,
I'm not gonna stop until your body saying ah

(Chorus)

Whoa, Got the lights off and the beat
Step up on the gun now
Gonna fly with you again
We'll be making love until the sunrise
The sunrise
Whoa, I'm gonna give you all the love
One decision, you gon' fly
We'll be making love until the sunrise
The sunrise

(Verse)

Hop upon it trying to see you
Riding girl you're facing me
Just know that you're dance the crew
You had the turn, sponsor now
Kiss my head, we'll go right now
You starring in, don't mean no vamp
But kiss right here, gonna count for sunlight
I'm gonna beat it up
You're so ready I'm so ready for this good love
Uh, I'm gonna beat it up,
I'm not gonna stop until your body saying ah

(Chorus)

Whoa, Got the lights off and the beat
Step up on the gun now
Gonna fly with you again
We'll be making love until the sunrise

The sunrise
Whoa, I'm gonna give you all the love
One decision, you gon' fly
We'll be making love until the sunrise
The sunrise

(Bridge x4)

I'm not gonna stop
Until we see the sunrise
See the sunrise, see, see the sunrise

(Chorus)

Whoa, Got the lights off and the beat
Step up on the gun now
Gonna fly with you again
We'll be making love until the sunrise
The sunrise
Whoa, I'm gonna give you all the love
One decision, you gon' fly
We'll be making love until the sunrise
The sunrise
