Yeah
U need to turn this up
Police...report to the dance floor
Yeah
It's just you and me
uh
yeah,feel that
yeah, ha
U know what's gonna happen once I get you over here
you, right?
You scared, yeah

Baby... I can't wait to get you up in my room
Baby...first let me go and set up the mood (set up her
mood)
now I'm gonna do you up
and then, I'm gonna do you down
I'm gonna have that body baby floating all around
And all you gotta do is get close to me
Bring it all to me, it's going down

Yeah
We ain't havin sex
we're making moments that will outlast the world
(talking about our love)
and This ain't sex
This is the symbol of the true makings in love

I'm open all night aw baby
OOO look at what you doing to me
Makes me believe
I'm not blind to see everything you giving to me
oh
oh baby
oo baby
oh

This is love; This is real; this is how you make me feel
ooo baby, ha
This is love; this is real; this is how you make me feel
Aww don't quit on me now

Baby... I cant wait to deliver you
(like a fed ex box baby girl sign your own name)

Ooo.. Baby...I... can't wait to remember you
(Can I be the first one call on your birthday?)
How I did you up and then how I did you down
Yeah, I had that pretty body floating around
Thinking back to when you were close to me and
I thought that we would never come down, hey

We ain't havin sex, no
We're making moments that will outlast the world
(outlast the world now baby)
and This ain't sex
This is the symbol of the true makings in love

I'm open all night, hey hey
hey look at what you did to me yeah
made me a beleiver
I'm not blind to see
everything you given to me, yeah
aww baby ooo baby
Feels so good
I cant get carried away
Need to stop and think before its too late
I can't
It feels so good inside
I guess we'll turn this moment into a life time

Cut loose
Bring it back; bring it back

huh oh oh

We ain't having sex, no, we're just making moments
that will outlast the world
(outlast the world now baby)

This aint sex this is a symbol of a true makings in love
(Talking about our love)

ooo baby, ha
