It's cozy, the jacousie on the roof of the hotel
Rip the tip off of a cuban, sipping, chilling by myself
When this chick with an English accent said, "I didn't
mean to interrupt"
But the water looks so inviting, is there room enough
for two of us

She had a body like damn, I checked her left hand
I didn't see no band, now you know your boy had to
chop it up

Get loose baby, cuddle up
Don't stop till you get enough
Don't shook, have no fear
What happens here stays here

What happens here stays here, what happens here
stays here
We ain't gotta take it there, but I put it out in the air
What happens here stays here

So when you see me girl, just pass me by
Cause I got a chick girl and you got a guy
If you see me girl, just walk on by
Cause I got a chick girl and you got a guy

No info, keep it simple, so no feelings can get caught
All fictitious names and digits, cells and ??? get cut off
And you don't mention that you jumped it off, cause a
jump off is what it was
Feeling guilty, truly, simply, it's got nada to do with
love

Man her body was like like damn, and I checked her left
hand
I didn't see no band, now you know your boy had to
chop it up

Get loose baby, cuddle up
Don't stop till you get enough
Don't shook, have no fear

What happens here stays here

What happens here stays here, what happens here
stays here

We ain't gotta take it there, but I put it out in the air
What happens here stays here

So when you see me girl, just pass me by
Cause I got a chick girl and you got a guy
If you see me girl, just walk on by
Cause I got a chick girl and you got a guy

When you a lil some caught your eye
Grab a fly young lady, say hi
Don't front, I know what's on your mind
You tryna cut a lil something on the side
Go on, tell them, yeah yeah yeah

Now the fellas don't think it's true
I see you ladies getting down with it too
But y'all handle it a little bit smoother
You and your crew, show the fellas how you do it
Let me hear ya

So I told her
Get loose baby, cuddle up
Don't stop till you get enough
Don't shook, have no fear
What happens here stays here

What happens here stays here, what happens here
stays here
We ain't gotta take it there, but I put it out in the air
What happens here stays here

So when you see me girl, just pass me by
Cause I got a chick girl and you got a guy
If you see me girl, just walk on by
Cause I got a chick girl and you got a guy
