"Yesterday"

Visit "[Yesterday](#)" on MotoLyrics.com

you're at it again digging up the past
but i don't have reasons for everything
i was a young man on top of the world
and you were my first priority
hotel rooms, (?) numbers
who's lisa? i don't know her
and if i have the power to take it back
i'll trade all my memories for you

i was wrong for the games
for the wrong that you played
i don't forget that you were patient baby, baby
what now can i say
to show you i've changed
this is my last forgive me baby

listen baby we can have a good thing
if you want tomorrow
you gotta forget the past
i know i hurt you
i can't change
that was yesterday,
can't go back on yesterday yeah
listen baby you gonna lose a good thing
if you want tomorrow
you gonna have to let it go
i know i hurt you
i can't change
that was yesterday,
can't go back on yesterday yeah

jealous brought in uncertainty
but you don't have reason to worry baby
we started a family, a life we planned
and these choices i made are my testament
vacations, stay overs
please don't say it's over
the eyes of my child taken miles away
and no way i could go back to yesterday

i was wrong for the games

for the wrong that you played
i don't forget that you were patient baby, baby
what now can i say
to show you i've changed
this is my last forgive me baby

listen baby we can have a good thing
if you want tomorrow
you gotta forget the past
i know i hurt you
i can't change
that was yesterday,
can't go back on yesterday yeah
listen baby you gonna lose a good thing
if you want tomorrow
you gonna have to let it go
i know i hurt you
i can't change
that was yesterday,
can't go back on yesterday yeah

i have done everything for our new beginning
you have done everything for yesterday
and nothing for tomorrow
i have done everything for you and our family
if you want me gone tomorrow
you can live in yesterday

listen baby we can have a good thing
if you want tomorrow
you gotta forget the past
i know i hurt you
i can't change
that was yesterday,
can't go back on yesterday yeah
listen baby you gonna lose a good thing
if you want tomorrow
you gonna have to let it go
i know i hurt you
i can't change
that was yesterday,
can't go back on yesterday yeah
