No one is perfect, we all are
I ain't forever, we all die
What is the purpose, we all wonder
Faith doesn't discriminate, we all cry

You and I, we're gonna fly
Destiny does not apply
Broken dreams are made of glass
Break the law will not suffice

You and I, we're gonna fly
Destiny does not apply
But we don't wanna think
We wanna dance, party life

Party life, party life
Oh woh woh woh woh woh woh

No competition can change grief
So many follow but don't lead
What is the purpose, we all wonder
Love is the only thing we all need

You and I, we're gonna fly
Destiny does not apply
Broken dreams are made of glass
Break the law will not suffice

You and I, we're gonna fly
Destiny does not apply
But we don't wanna think
We wanna dance, party life

Babe, you're alright baby
(Oh woh woh woh woh woh woh)
Look around now girl

You and I, we're gonna fly
Destiny does not apply
Broken dreams are made of glass
Break the law will not suffice

You and I, we're gonna fly
Destiny does not apply
But we don't wanna think
We wanna dance, party life

In ice the ship is going down
We'll just keep on dancing

You and I, we're gonna fly
Destiny does not apply
Broken dreams are made of glass
Break the law will not suffice

You and I, we're gonna fly
Destiny does not apply
But we don't wanna think
We wanna dance, party life

You and I, we're gonna fly
Destiny does not apply
Broken dreams are made of glass
Break the law will not suffice

You and I, we're gonna fly
Destiny does not apply
But we don't wanna think
We wanna dance, party life

It's kinda sad but I think we're gonna keep on dancing
