Off the top

(Chorus)

Slide over

Mami let me get in your ear

Let me sprinkle you with some of this here

You's a cutie pie, butterfly

I just wanna see you smile

Slide over (Yeah)

You should resist a bit of your time

Soak it up let it get in your mind

Cause I'm so really feeling you, I'm so really digging

you

I'm so just ..

Slide across the leather let me feel your body heat

Let me get you in the mood while you're turning up the
beat

Spea-Speakers bumping loud vibrating down the street

You ain't no average girl so you need someone unique

Scrape-Scraping down the block in a cady whipping
new shoes

All up in my ear telling me what she gon do

And she all on my cologne like some cat scratch fever

Telling me no Mami's gonna match that either

Haters might chatter but we really ain't trippin' though

Long as me and you baby boo know it's really though

Haters might chatter but we really ain't trippin' though

Long as me and you baby boo know it's really though

(Chorus)

Now you as hot as heat of Summer girl but cold as the
snow

That's right but anything's possible but nothing's for
sure

Your smile's worth a million bucks and girl I'm feeling
your flow

I can't lie I'm so addicted to your beautiful glow

Let me find out your love going to Vegas
First class flights five star accommodations
And we can get our money on and I'ma love you long
Give you the key to mi corazon turn your house into a
home
Then hit the galleria, go out for Margaritas
Rock star sweet desire for another
Leave us
Let's thicken the whole plot the question ain't why
Baby boo it's why not

(Chorus)

I just want you close to me
Yeah
Oh
'Cause this, this is where you supposed to be ooh
So just

(Chorus)
