Bye Goodbye, Bye Goodbye, Bye Goodbye, Bye  
Goodbye, this is the last time)(repeat twice)

Fleeting moments I fight the notion we're on borrowed  
time.

As the sun begins to rise and our extasy gives way and  
we say our goodbyes.

(Hook)

We made the earth quake, We made the stars collide,  
We made the mountains shake, we made the heavens  
cry,so flowers bloom and love can bloom all around  
Cuz I put it down.

Baby this is the last time  
Baby this is the last time for you and I  
Baby this is the last time and that was just a proper  
goodbye.

Verse 2

Strands of your hair on my pillow(on my pillow)  
Sheets from the bed on the floor(on the floor)  
Heat and Lust on the window  
Do not disturb on the door.

Baby this is the last time  
Baby this is the last time for you and I  
Baby this is the last time and that was just a proper  
goodbye.

Yeah Right

Who am I kidding I can't lie  
She knows I'm with it to get it  
You damn right.  
She's so bad in the bed I can't fight  
When she resists, I can't resist it man  
I need to get it together you're damn right but she's so  
bad in the bed I can't fight when she resist it I can't  
resist it no way  
We know its over we're just comfortable with each other  
I know what she likes and she knows what I like  
I think we both needed closure

Baby this is the last time  
Baby this is the last time for you and I  
Baby this is the last time and that was just a proper  
goodbye.

So goodbye goodbye goodbye so goodbye goodbye so  
goodbye let me kiss you one last time let me hold you  
close wipe your tears and make you smile just before I  
go  
Hear the morning calls in for another day  
but before I go let me make sure I say.

Baby this is the last time.
