Sedate me
Salacious, salty, and sweet
I'm overwhelmed by tasty thoughts of you
Day dream
My body waving the white flag
Take me (yea babe)
Now I know I'm sober
It's just so profound
That every wall I built up
Has come crashing down
Don't the waves pull the sand
Don't the moon pull the tide (babe)
I love you
Use me (yeah)
Wanna give you control
With the lights off
If I could just let go
Forgive me, it's the very first time
And I'm nervous
Can I trust you?Â
Trust me
While I take this off
With the lights on
Cuz it turns me on
Now you're nervous
Just let me show you how to touch me
I could teach you (yea)
Sensation
As I place my tongue on your lips
You're overwhelmed by everything I do (oh)
Curse me (yeah)
With such a beautiful nightmare
Don't wake me (yea baby)
Now I know I'm sober
It's just so profound
That every wall I built up
Has come crashing down
Don't the waves pull the sand?
Don't the moon pull the tide? (baby)
I love you
Use me (yeah)
Wanna give you control

With the lights off
If I could just let go
Forgive me, it's the very first time
And I'm nervous
Can I trust you?Â
Huh?
Trust me
While I take this off
With the lights on
Cuz it turns me on
Now you're nervous
Just let me show you how to touch me
I could teach you (yeah)
Blissful collision as our bodies tangle, intertwine
Biting your lip
Baby put me insideÂ
Crucify thoughts
Til the moment's on a ricochetÂ
Purging my mind
Of the power I own
Fall into forever
Just forgive me I was faithless
Danger in your eye
Baby you can devour me
DefileÂ me (yeah)
Use me
I wanna give you control
With the lights off
If I could just let go
Forgive me, it's the very first time
(oh do what you do please baby)
And I'm nervous
Can I trust you?Â
Huh? (please me)
Trust me
While I take this off (please baby)
With the lights on
Cuz it turns me on
Now you're nervous
Just let me show you how to touch me (nah darling)
I could teach you (yeah)
Use me...
Use me
I wanna give you control
With the lights on
If I could just let go
Forgive me, it's the very first time
And I'm nervous
Can I trust you?Â
Huh?
Trust me

While I take this off (yeah)
With the lights on
Cuz it turns me on (yeah)
Now you're nervous
Just let me show you (yeah) how to touch me
I could teach you (yeah)
Use me...
Use me
I wanna give you control
With the lights off
If I could just let go
Forgive me, it's the very first time
And I'm nervous
Can I trust you?Â
Huh?
Trust me
While I take this off
With the lights on
Cuz it turns me on
Now you're nervous
Just let me show you how to touch me
I could teach you
Use me...
