we drop around the clock
trippin' it down to beats along the bloc
steady she goes
every all is love in every way
kiss the peace frog with conviction, say

beats drop like cod fish stocks
trippin' it down to beats along the bloc
steady she goes
every all is love in every way
kiss the peace frog with conviction, say

dear lordosis, please relieve psychosis
behaviour through osmosis
dipsogen cirrhosis
the paranoids playing xylophones with rusty
leucotomes
chordates makes ideal mates
and perfect posture

ain't it maxic how thigmotaxic the herd hath become?
fluoride makes you dumb
shock the casbah, diffusion is next
check the sonic death text
are we but infinite specks left perplexed?

we drop like merck corp. stocks
trippin' it down to beats along the bloc
steady she goes
every all is love in every way
kiss the peace frog with conviction, say

circadian bowling pin manufacturer
rhythm machine, we're dopamine fiends
studies show geniuses pick green
so chlorophyll me upstream
how scalene waltzing to rotterdam

dirty shirley
knocking on the membranes of reptile brains
like mr. furley

jack the tripper
pineapple juice sipper
don't do crystal
hence, no use for blipper

we drop like merck corp. stocks
thalamus gets outlined with chalk
steady she goes
every all is love in every way
kiss the peace frog with conviction, say

to live chromatically or achromatically is my choice
so i choose hues of oranges and blues
no doubt, simple purity
would you be my surity?
should i arrest myself a mea culpa?

she's golden by the gram, words like pixie dust
she sweeps the room with a smile
and a broom so chill, yet so hot
got no cupboard for the pot
pray that this dream is not for cots
we drop around the clock
trippin' it down to beats along the bloc
steady she goes
every all is love in every way
kiss the peace frog with conviction, say
