Deep behind the hills  
Deep within the shadows  
The phantom house appears  
Upon the dead's domain  
And within the walls  
A man sits in the dark  
Tombstones decorate  
This desolate yard

Awaken the shadows!  
For it's the devil's soul  
A moonless night  
A sleepless drone

Demons walk tonight  
Transformation unlight  
Souls awaken and roam  
Can you hear their moans?

[Chorus:]  
My earthbound walls  
A dying season calls  
Illuminations  
Transformations

Tormented screams  
The new years bring you death  
Sombre spirits appear  
They haven't slept in years

[Chorus]

Demons walk tonight  
Transformation unlight  
Souls awaken and roam  
Can you hear their moans?

[Solo: Scythe, Necromancer]

[Chorus]
