Into The Oblong Box

Into darkness, into fear  
Into nothingness... into the oblong box

Spawned of cosmic dust  
Into human form  
With the fear of death  
Man invents his gods  
Kings and tyrants reign  
Religion is spawned  
Fear becomes obsession  
Obsession grips us all

Life is pain, sands of time run quick  
Deaths' cold embrace... oblivion  
Borrowed time, each breath we take  
Brings us closer to our last

Into darkness, into fear  
Into nothingness... into the oblong box

Universal chaos  
Instinct to survive  
Merciless existence  
Alone... we die  
Buried and forgotten  
Lost in space and time  
From dust we have arisen  
To dust... we return

Romantic dreams  
Tales of peace  
Eternal sleep  
Forever

Misery and pain  
Brings us closer  
To our home  
The Box
