Don't believe until you see all there is to see  
English translation:  
But it shouldn't be as easy as saying  
"Even though I slipped up..."  
Hold on, I'm sure if you just understood me a bit more  
A better rain would fall

"Selfish." That's what I was called  
It's alright to feel lonely sometimes  
Riding in the solution we put out together  
We'll pass by all the cloudy skies

Though the tires that won't spin line up before our eyes  
I wonder who's hypocrite who won't step on the  
accelerator

Oh baby wait and see  
Sometimes, even pain is good  
It's because there's risk  
That faith has meaning  
It's impossible not to get lost

Oh baby wait and see  
Even though waiting isn't my specialty  
It's too soon to start your scolding  
Don't believe in things like fortune-telling

Turning to love, there's a shortage on the left side

That's why I need you  
Do you intend to protect  
Yourself with your cold attitude?

Give me the power to endure what I cannot change  
And also to change what I cannot endure

Oh baby wait and see  
Even though it's no fun to hurt  
It's because there's risk  
That we become strong enough to fight  
It's impossible not to be afraid

Oh baby can't you see  
Even though waiting isn't my specialty  
It's too soon to start your scolding  
Don't believe in things like fortune-telling

So baby wait and see  
There's no wound that can't be soothed  
I wonder if it's because there's risk  
That we hurt the more we love  
There's nothing wrong with that

I wonder if it will be easier  
If I were to run somewhere far away  
There's no way it should be  
Because no matter where I am, I'm still me

If the key is too high, you can drop it  
Because the song has strength that won't change  
There's only one point where suffering can pass  
through  
Like a bracelet that's too big, it slips right away

Don't believe until you see all there is to see
