Waiting for a sign to say that it's OK
Faking all the smiles wrapped around my face
Focus on the pain and exfoliate
Focus on the pain, antithesis

Carving notches in the post of no regret
Basking in the glow waving checkered flags
Fuck you and your game, I exfoliate
Fuck you and your game, antithesis

And I feel indigo

I'm annoyed to be disappointed
Annoyed just to be
I'm annoyed to be disappointed
Origami

Waiting for a sign to say that it's OK
Faking all the smiles wrapped around my face
Focus on the pain and exfoliate
Focus on the pain, antithesis

And I feel indigo

I'm annoyed to be disappointed
Annoyed just to be
I'm annoyed to be disappointed
Origami
