

## **V Shape Mind "Glitches"**

Visit "[Glitches](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Truth is taking over  
Wrapped up in a suit of armor  
Cannot penetrate this metal  
Don't it make you feel insecure  
Seasong they are changing  
Lit up like a Christmas tree  
Giving all the things desired  
Too bad all the gifts are defective

Glitch in the system is pulling down

All these dirty bricks, they weigh a ton  
The pressure's mounting and I don't mind  
Waiting for these strings to come undone  
The water's rising and I don't mind

Running for the shelter  
The cul-de-sac is never ending  
Cracks along the shell they surface  
Pointing out the lines of distaste  
Visualize escaping  
Sucked in by the tractor beam  
Karmic retribution waiting  
Eager to spread it's seedlings

Glitch in the system is pulling down

All these dirty bricks, they weigh a ton  
The pressure's mounting and I don't mind  
Waiting for these strings to come undone  
The water's rising, I don't mind

Glitch in the system is pulling down  
Lie in the fetal position now

All these dirty bricks, they weigh a ton  
The pressure's mounting and I don't mind  
Waiting for these strings to come undone  
The water's rising, I don't mind
