It's my head
Follow me to the center of my brain
I will not be here so will you explain
You can't say that you were
A friend to me now you're gone
Out of my life I still
Feel you inside the walls of my brain
I think I am insane
You can't see me now that I'm so fucking empty
You don't do a thing you just make me unhappy
You look at me as a way out of the pain

Thinking about the way things have turned out
I just don't know what this is all about

Take away
What I say
It equals nothing in my memory
Everyday I am constantly feeling empty
With no words to say

You can take me as I come to you
Or you can leave me here without a clue
Pay attention to the words I say
You will learn my voice everyday

Suffer with me help me be me
I can't hear you
Take me with you when you leave here
Take me with you
I can't take this take me away
I go insane
Do you hear me can you see me
Looking for you

I can't feel me
