Your energy, save it to throw me down the stairs again  
Numeral three phobia, skim the cream  
Stop bleeding on everything

Totally different head seems to obsolete  
Totally different head seems

Through the feces, back up the jigsaw kings  
Upping the ante  
Apology, save it and skim the cream  
Stop bleeding on everything

Totally different head seems to obsolete  
Totally different head seems

Feels like falling into a parallel universe  
I need to feed the enemy, need to feed.  
I need to feed the enemy, need to feed.  
Stop bleeding on everything

Totally different head seems obsolete  
Totally different head seems obsolete  
Totally different head seems obsolete  
Totally different head seems
