Why does the world have to work this way?
Take it all away
I can remember the first time I saw you
You were a new face in my life, why?
Why'd you have to go?
I cannot see you but still I can feel you
Yes I can hear you, but can you hear me too?

You reach for me, I reach for you
When will we meet up again?
Try not to cry, when I ask him why
When will I finally see the end?

Partially broken I walk through my life
Without a care and I wish you were here
You'll live forever in my mind
I never let you go
I cannot see you but still I can feel you
Yes I can hear you, but can you hear me too?

You reach for me, I reach for you
When will we meet up again?
Try not to cry, when I ask him why
When will I finally see the end?

I feel my life slipping away from me
Come take away the pain
You could not know how much I miss you so
I need you here with me

I'd give my hands to see you again
I'd give my life to hear your voice

I wish I could touch you
I wish I could see you
I wish you could hear me
I wish that I knew you

Everyday - I look around and see that same thing
Never know - I'm gonna make it through another day
While I'm here - Feels like the walls are slowly closing in
Every time - I think that I will never see you again

Don't know what
Has happened
I know there's
No reason
For you to
Be taken
From this world

You reach for me, I reach for you
When will we meet up again?
Try not to cry, when I ask him why
When will I finally see the end?

I feel my life slipping away from me
Come take away the pain
You could not know how much I miss you so
I need you here with me

I can't break free from all my misery
Come take away the pain
It's you I need whenever I'm alone
I need you here with me

I need you here
Can you hear me?
Why can't you say that you'll help me break free
If you were able I know that you would
I think it's wrong just the thought that you can't tell me
why
