Can't believe it was a lie when you said it to me  
Played it to me from the heart when you read it to me  
Fed it to me with a silver spoon; I believed  
You led me to it as it turns out you've been deceived  
Aaaaahhhh!

Your fucking lifestyle's got myself a nervous wreck  
Having dreams with my hands around your fucking  
neck - Thrust  
Grip it tight - Make it bust  
I'm losing my head like you lost my fucking trust

Open up, I see inside your eyes what's to come ahead  
By the way you feel, I can see that you are staring dead  
All emotion lost from the shit that you have put me  
through  
I will get you back and you will never have a fucking  
clue  
Wilderness of mirrors and myself I can't stop running  
riot  
Every time I think about the shit you did I want to kill  
Everything alive that's in your life I wanna keep it quiet  
Just to let you know you let me fall that's how I fucking  
feel

I feel abused, so ashamed  
I feel the pain, from the burn, from the lesson learned  
from the burning flame  
I feel the pain and I'm so confused  
Everytime you tell a lie, you're killing my trust leaving  
faith to die

You never thought I'd dig it up, you underestimate me  
You got it all figured out, always affiliate me  
I can never stay away 'cause you investigate me  
I can never say a word 'cause you evaluate me  
Believe yourself when you lie 'cause you do it so much  
Got me fucked up thinking about who I can trust  
Everybody coming at me saying what I should do  
Don't know why I feel this way but I want to kill you

Open up, I see inside your eyes what's to come ahead

By the way you feel, I can see that you are staring dead  
All emotion lost from the shit that you have put me  
through  
I will get you back and you will never have a fucking  
clue  
Wilderness of mirrors and myself I can't stop running  
riot  
Every time I think about the shit you did I want to kill  
Everything alive that's in your life I wanna keep it quiet  
Just to let you know you let me fall that's how I fucking  
feel

I feel abused, so ashamed  
I feel the pain, from the burn, from the lesson learned  
from the burning flame  
I feel the pain and I'm so confused  
Everytime you tell a lie, you're killing my trust leaving  
faith to die  
I feel abused, so ashamed  
I feel the pain, from the burn, from the lesson learned  
from the burning flame  
I feel the pain and I'm so confused  
Everytime you tell a lie, you're killing my trust leaving  
faith to die

Die

Fucked up inside, I see you inside, It's not good  
Fucked up inside, I see you inside, It's not good  
Fucked up inside, I see you inside, It's not good  
Fucked up inside, I see you inside, It's not good

Fucked up inside, I see you inside, It's not good  
Fucked up inside, I see you inside, It's not good  
Fucked up inside, I see you inside, It's not good  
Fucked up inside, I see you inside, It's not good

Why don't you see what you do?  
Why should I wait here for you?  
What do you see in yourself?  
How can you live with yourself?  
How could you think I could trust?  
Always leave me in distrust  
Thinking the same way you do  
Put beside the things I knew  
I try - Goodbye  
I try - Goodbye

I feel abused, so ashamed  
I feel the pain, from the burn, from the lesson learned  
from the burning flame

I feel the pain and I'm so confused  
Everytime you tell a lie, you're killing my trust leaving  
faith to die  
I feel abused, so ashamed  
I feel the pain, from the burn, from the lesson learned  
from the burning flame  
I feel the pain and I'm so confused  
Everytime you tell a lie, you're killing my trust leaving  
faith to die

Die  
Die  
Die (Die)
