Born rich it's been a real bitch  
They took your fancy clothes and model pose  
You've got passions for all the latest toys

Rehab made you feel drab  
They took your little pills and windowsills  
Not gonna hold your hand while you self destruct

I'm gonna rattle your cage  
Rockin your little world  
Rattle your cage  
Rockin your little world

Endless greed don't feel a real need  
There ain't no dollar sign on piece of mind  
Angels fly wearing hand me downs

You're on the ground floor  
You're in an up-roar  
You're like a falling star when it falls too far  
Mesmerized by your looking glass

I'm gonna rattle your cage  
Rockin your little world  
Rattle your cage  
Rockin your little world

Come with me and say goodbye to your broken world  
Follow me to paradise, you've got to trust it girl

Oh - Hold on tight  
Oh - feel the night

I'm gonna rattle your cage  
Rockin your little world  
Rattle your cage  
Rockin your little world
