Shizuka ni asayake ga daichi o tsutsundeku
Itsumo to kawaranu yoake...

Quietly, the morning glow envelopes the land
It's the same dawn as always...

Haruka ni tsuzuiteku kurikaeshi no naka de
Bokura wa ima o ikiteru

Far off, it continues inside of the refrain
Right now we are alive

Mienai kyou no kaze ni tachimukatteyuku
Itsumademo mamoritai sono hohoemi o...

We're stand up against the day's unseen wind
I want to always protect that smile...

Wanna take you, baby, take me higher
Ai o dakishimete ima
Gonna TIGA! Take me, take me higher
Yuuki dakishimete tsuyoku
Wanna take you, baby, take me higher
Kitto tadoritsukeru sa
Gonna TIGA! Take me, take me higher
Atsui kodou o shinjite...

Wanna take you, baby, take me higher
Embrace love right now
Gonna TIGA! Take me, take me higher
Embrace courage tightly
Wanna take you, baby, take me higher
Surely you can find your way
Gonna TIGA! Take me, take me higher
Believe in hot pulsing...

Arasoigoto no nai ashita o sagashiteru
Daremo ga machinozonderu

We're looking for a tomorrow where there is no fighting
Everyone is waiting just for that

Bokura ga dekiru koto o tsuzuketeyuku yo
Yasashiku narereba ii tayasazu itai

We will continue to do what we can
I want to become used to being nice without letting the
fire go out

Wanna take you, baby, take me higher
Subete ugokihajimeta
Gonna TIGA! Take me, take me higher
Michi o kirihiraiteyuku
Wanna take you, baby, take me higher
Tachido
