

## Vainglory "CCF"

Visit "[CCF](#)" on [MotoLyrics.com](https://MotoLyrics.com)

They march ever night and day  
And they feel, so very proud  
They do their job with no remorse  
As their fathers once did as well  
The Citizen Containment Force  
They know not what they do

They are the law, it's what we're taught  
As long as we can recall  
It's an honor, to be part of the force  
The gallant CCF, is given its due  
The Citizen Containment Force  
They know not what they do  
Blindly following history

Not knowing the birth of misery

All shall serve two years to life  
Do your job well and be released  
No one seems to know the truth  
Their world is only what they're told

You can't refuse you must abide it is required to  
conform  
Resist and you will die execution awaits always near by  
The Citizen Containment Force they know not what they  
do  
Forgive them, they know not what they do
