The CCF is knocking at my door as we speak  
They are looking for me as I take sleep  
But I'm no fool as I move from place to place  
They will not ever fine me, I left not a trace

Will they give me my life, will they admit the wrong  
Will we ever live, will we ever belong

We are united in our common cause  
We will not be turned back or deterred  
Many have fallen for our final goal  
I must go on, spreading out our word

Will they give me my life, will they admit the wrong

Will we ever live, will we ever belong

Fight! Till the death we must, until we break free  
Fight! Till the death we must, it is agreed  
Fight! Till the death we must, put trust in force  
Fight! Till the death we must, it's now or never

I never knew what freedom cost

Fight! Till the death, Fight! Till the death  
Until we break free, Fight! Till the death  
It's now or never
