Today I don't care about anything
Today I'm sick of everything
I could care less if my brakes fail
I could care less if I run out of air
I could fall asleep and not wake up
I tell you honestly I've had enough
Go ahead and bury me
Go ahead and let me sleep
I'm numb to everything
I cannot feel a thing
Today I, I'm sick of everyone
Today I, I'm out for everyone
I am immune to your touch
Go ahead and stab me I've had enough
Go ahead and bury me
Go ahead and let me sleep
I'm numb to everything
I cannot feel a thing
I am dead weight
If I were you I wouldn't wait for me
To get myself straight
I'd just turn around and escape
Go ahead
Go ahead and...
Go ahead and bury me
Go ahead and let me sleep
I'm numb to everything
I cannot feel a thing
(I can't feel anything)
Go ahead and bury me
(I'm sick of everything)
Go ahead and set me free
I'm numb to everything
I cannot feel a thing
I cannot feel a thing
