i'm a penny found tails side up
or a half glass of water in a muddy cup
a lion's share that's not enough
cuz the grass is always greener
when it ain't yours to cut

but it's alright..it's only your life
yeah, it's alright...it's only your life

and you never get it right
no you never get it right
no never on the first try

so catch your demons like butterflies
in a giant netting full of eager eyes
cuz i'm a comet burning up the sky
fading into dust and falling fast

but its alright..yeah it's only your life
it's alright...yeah it's only your life

and you never get it right
no you never get it right
no never on the first try

give up the fight
give up the fight
on the first try
