so you can't walk down the street without shaking to
death
and you're terrified of sleep
all the visions in your head

and i'm sorry what they did
sorry what they did
they'll be sorry what they did
sorry what they did
yeah, i'll make them pay for it

'cuz if they come again i will be ready for them
i will be armed to the teeth with all of the memories you
trusted to me
and i won't stop 'til they're all on the ground soaked in
the same blood they left on your gown
and they will beg me to just let them die
but i will keep them alive
so they see how you've survived

and i know just what you'd say
you'd say leave it alone
but there's no such thing as justice
if they're free to roam

if i ever see they're face
ever see they're face
if i have a choice to make, it's already made
i will not let them escape

'cuz if they come again i will be ready for them
i will be armed to the teeth with all of the memories you
trusted to me
and i won't stop 'til they're all on the ground soaked in
the same blood they left on your gown
and they will beg me to just let them die
but i will keep them alive
so they see how you've survived

i'm so sorry
i'm so sorry

i'll make them sorry
yeah i'll make them sorry

'cuz if they come again i will be ready for them
i will be armed to the teeth with all of the memories you
trusted to me
and i won't stop 'til they're all on the ground soaked in
the same blood they left on your gown
and they will beg me to just let them die
but i will keep them alive
but i will keep them alive
but i will keep them alive
