i can see you hiding in the summer grass
like a serpent waiting for me to pass
i can feel your venom running through my veins
i know i'm in trouble but i feel no pain

so could you please stop calling me
would you please stop calling me
could you please stop calling me
would you please stop calling me

cuz i can't say no
no i can't say no

i get distracted so easily
even blindfolded trouble still finds me
so i change my numbers and i change my locks
but just when i get settled then there you are

so could you please stop calling me
would you please stop calling me
could you please stop calling me
would you please stop calling me

cuz i can't say no
no i can't say no
no no no won't say no
never could say no

so could you please stop
please stop
please stop calling me
would you please?
