softee...you're giving me the lightest shoes
i'm crushed...i never felt skin so smooth
your legs...wrapped around my back so tight
we slept....we slept that way throughout the night

just you...the only one i wanna do
just you...the only one i wanna do
just you...just you

softee....you play with me like children do
your lips...hit me and i couldn't move
your arms...i bit so hard i made you bruise
your hips...i bury my head inside you

just you...the only one i wanna do
just you...the only one i wanna do
just you...just you

softee...(the only one i wanna do)
softee...(the only one i wanna do)
softee...(the only one i wanna do)
