"This Ship's Going Down"

Visit "[This Ship's Going Down](#)" on MotoLyrics.com

i fear this ship's going down
and nothing we do can fix it up now
the problem's gone on for so long
we were riding high
never bothered to look below

who's in charge, who's in control?
does anyone here even know?
everyone out, it's gonna blow
you never see it coming
no, it's too close to you
no, it's too close to you

we were busy looking ahead
we never checked out what we were traveling in
only in crisis do you care enough
to hold the ones you love
to value having love

who's in charge, who's in control?
does anyone here even know?
everyone out, it's gonna blow
you never see it coming
no, it's too close to you
no, it's too close to you

you can't ignore it
can't turn it off
we said we cared
but not enough
now it's all ending

who's in charge, who's in control?
does anyone here even know?
everyone out, it's gonna blow
you never see it coming
no, it's too close to you
no, it's too close to you
