I am suffering
From a make-believe disease
Life is terrifying
So I just sit here dying, dying, dying
I've become so unstable
A screaming baby in a cradle
I've become so unfaithful
I can't dream
I'm fucked up
The possibilities
Scare me right to sleep
The fear is paralyzing
So I just sit here crying, crying, crying
I've become so unstable
A screaming baby in a cradle
I've become so unfaithful
I can't dream
I'm disabled
I am lost
I am suffering
From a make-believe disease
The fear is paralyzing
So I just sit here dying, dying, dying
I've become so unstable
A screaming baby in a cradle
I've become so unfaithful
I can't dream
I'm...
I've become so unstable
So unstable
So unstable
I've become so unstable
So unstable
